## SUMMARY EXPERIENCE

---

As a frontend developer, I am passionate about creating dynamic and interactive web applications. With a strong foundation in frontend development including HTML, CSS and JavaScript, I have all the knowledge to develop responsive web interfaces that meet user requirements. I am using React and feel comfortable using various JavaScript libraries and frameworks such as Nextjs and have knowledge of using version control systems such as Git. My strong problem solving skills and attention to detail have allowed me to quickly identify and resolve issues during development. I am always learning and adapting to new technologies to keep up with the latest industry trends.

## SKILLS

---

- HTML, CSS, Sass
- JavaScript, Typescript
- React, Next JS, Node JS, Redux, Redux-Toolkit, Context-api
- Git, GitHub ,
- Material-UI, Tailwind CSS, Bootstrap,

## SOFT SKILLS

---

Leadership,Comunacation with clients , Public Speaking , Time Management , Quick adaptation , Fast learning

## EDUCATION

---

### NAJOT TA'LIM EDUCATION CENTER

Frontend course

2022.07.20 2023.01.28

### UDEMY ONLINE COURSES

JavaScript - The Complete Guide 2023 (Beginner + Advanced).

Academind | 2023

## EXPERIENCE

---

### FRONTEND DEVELOPER: 03/2023

#### FREELANCER

- Thrived in a dynamic and diverse team, effectively communicating ideas and delivering high-quality results through collaborative efforts.
- Successfully implemented advanced filtering functionalities, enhancing search capabilities and enabling users to efficiently refine data according to their preferences.
- Developed intuitive and user-friendly Admin panels, empowering administrators to efficiently manage content, user accounts, and monitor platform activities. Utilized a user-centered design approach and implemented robust security measures to provide a secure and efficient administrative experience.
- Utilized appropriate technologies, such as i18n libraries, to develop multilingual websites, providing seamless user experiences for diverse audiences.
- Responsibly handled table requests to the backend and optimized filtering functionalities to improve project performance and efficiency.
- Utilized a variety of tools and technologies including React JS, Redux-toolkit, Next-js, Context-API, Next-js Tailwind CSS, MUI, Axios, Chart JS, and Styled-components.
